

# **CSIT883 System Analysis and Project Management**

## **Week 3**

### **In-class exercise**

Create a project consisting of 10 tasks (your project must be meaningful, i.e. the task description and duration must also be meaningful).

Your project plan must show evidence of the following:

1. Gantt chart with task name appears inside the task bar.
2. Project Summary Task and appropriate summary tasks.
3. Appropriate milestones.
4. Ensure that the working hours are Monday to Friday 9.00am-12.30pm and 1.30pm-5.30pm and appropriate public holidays are considered in your project plan.
