1.8 True

1.9 IDEAL Framework

1.10 Top down

2.Planning is the process that develops, creates, and implements strategies for the accomplishment of objectives. If planning is necessary, it usually includes strategic planning, tactical planning and operational planning.

3. •Governance of InfoSec is a strategic planning responsibility

Five basic outcomes:

Information security governance includes (ITGI)

Providing strategic direction

Establishing objectives

Measuring progress toward those objectives

Verifying that risk management practices are appropriate

Validating that the organization's assets are used properly

4.In the top-down method, an organization's leaders choose the direction Planning begins with the general and ends with the specific. In a way that high-level managers provide resources, give direction, issue policies, indicate goals and outcomes, determine responsibilities While bottom-up method use technical expertise of the individual. Lack of coordination. The top-down method is usually more effective.

5.Some common attacks

Malicious code: virus
